

INTRODUCTION

SAGE Knowledge is the ultimate social sciences online library for students and researchers at all levels—undergraduates, post-graduates, teachers, and professors. With over 4,400 award-winning titles from SAGE Books, SAGE Reference, CQ Press, and Corwin, the platform offers an interdisciplinary social science book and reference titles published from 1994 to the current day with annual frontlist upgrades.

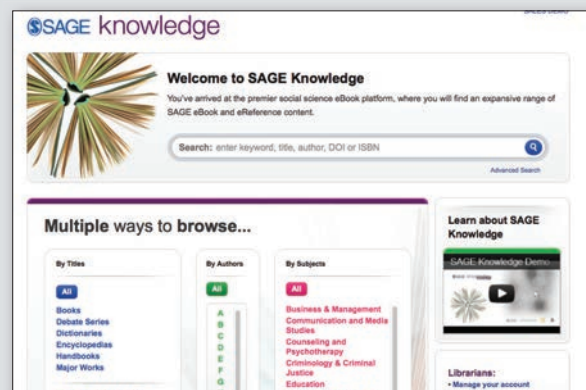

When should I use **SAGE Knowledge**?

- ★ Find SAGE, CQ Press, or Corwin eBook
- ★ Search for a quick explanation of a term or concept
- ★ Get help identifying key research
- ★ Find in-depth overviews of topics across the social sciences

In depth coverage of the following subject areas:

- Business (575+ titles)
- Counseling (350+ titles)
- Criminology (210+ titles)
- Education (1,000+ titles)
- Geography (110+ titles)
- Health & Social Care (330+ titles)
- Media/Communication (420+ titles)
- Political Science (480+ titles)
- Psychology (290+ titles)
- Sociology (580+ titles)

SAGE Knowledge contains information suited to all levels of researchers, from undergraduate students starting their first projects to the most senior faculty.

PRODUCT TOUR

The platform has many tools to simplify the research process:

- Table of contents navigation
- Email Chapter Link and Share features for social sites
- Ability to easily change text size
- Chapter print and PDF download options
- Citation options including export to End Note, RefWorks and other citation manager software

Let's take a look at at the different sections of the platform.

We'll start with Browse Topics.

► Clear navigation options

Most people will simply type in their query into the search bar, but **SAGE Knowledge** also has clear browse options. These also signal to the user what kind of site it is and what content is included.

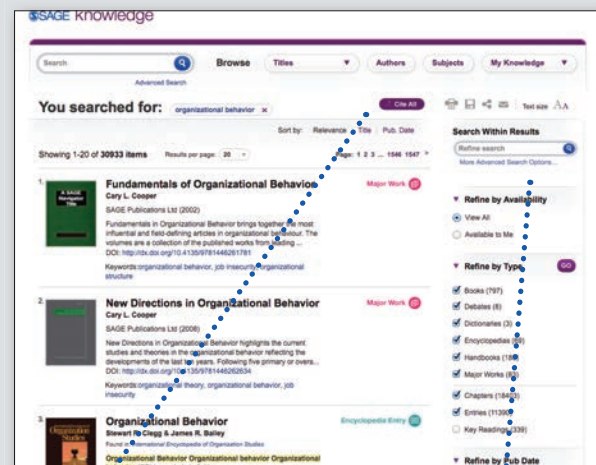

The navigation options are echoed throughout the site in the top rail.

► Search

Search results include books, dictionary entries, chapters, encyclopedia entries, major works and handbooks. Each search result shows a snippet of the full text and search terms are highlighted in this text

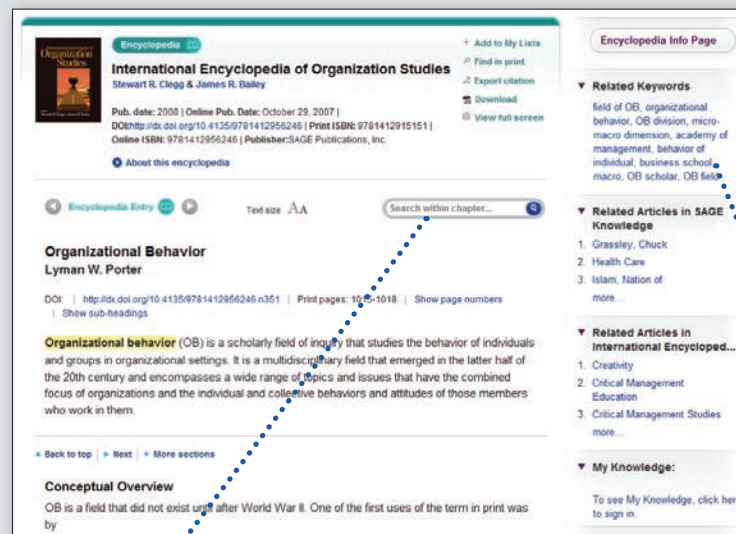

Searches can be saved by clicking on the floppy disk icon. The saved search remembers the search parameters users can execute again in the future from the "My Knowledge" area.

Citations can be exported for every result in a search by clicking on the purple "Cite all" button

Options to further refine the results are on the right rail, by type of content, subject area, publication date or keyword

► Within the book/encyclopedia

There is an option to
“Search with chapter”

On the right rail—related
keywords are suggested, and
further down this rail there is a
link to other books by author

► Videos

If you are in a title with
video, you will see the
“video button”.

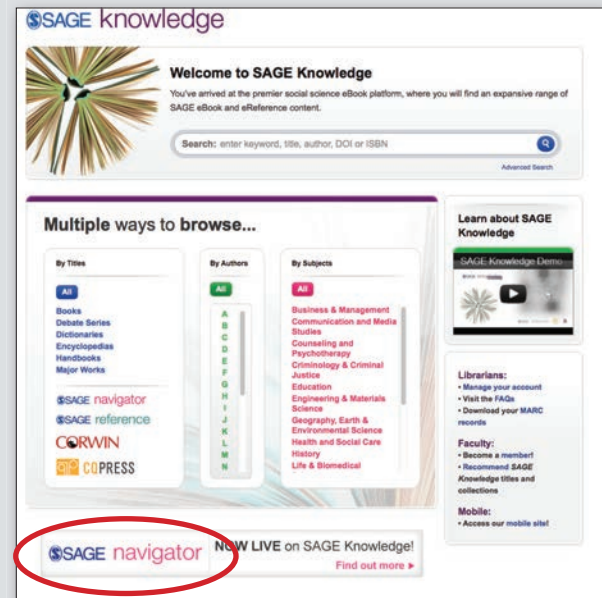

Many of our newer titles now include
multimedia such as video, which include
full transcripts.

► Sage Navigator

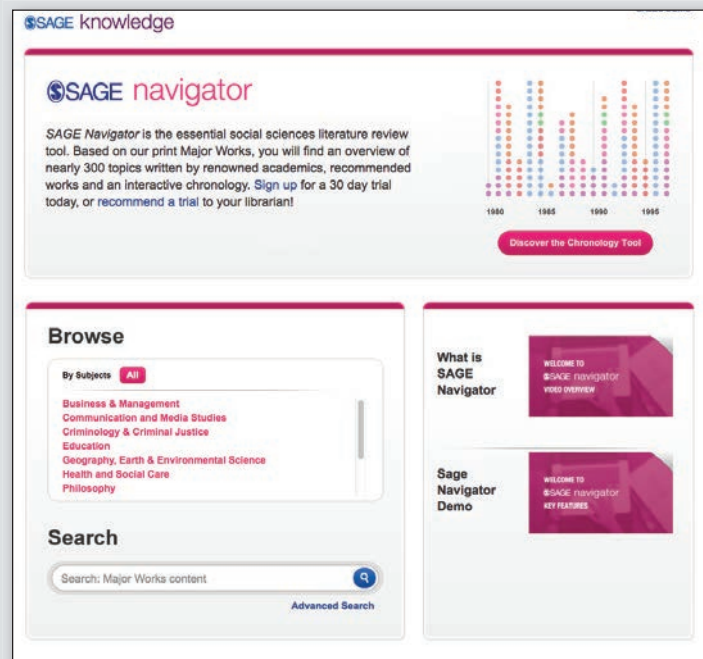

In a world where Google churns out 20 million results per query, **SAGE Navigator**, hosted on SAGE Knowledge, provides a place for users to locate only the best of the scholarship in the field or topic and includes literature from over 1,000 publishers.

Key Elements

These are more than 'guides' based on the Major Works with 50-150 recommended pieces of literature, totaling over 21,000 key readings. Links to the full text of non-SAGE content are provided where available, which should be accessible to users who have already authenticated through the library interface.

- 1 **SAGE Navigator landing page:** Browse or search within SAGE Navigator titles only.

- ② **Overview:** Each title includes an overview of the discipline, where the editor explains how he or she selected the readings.

- ③ **Key readings:** A chronology gives the user the opportunity to visualize development of research. It shows the categories that the editor defined as most important, plotted on a timeline. The key section and colored dots, each of which represents a key reading, are designed to help researchers recognize patterns within the topic

Users can then select the readings listed to review an abstract of the journal article; and click on “Full text” and get taken to the full article on the publisher’s site. They will be able to read the full article if their institution has a subscription.

SAMPLE COURSE ASSIGNMENTS

SAGE Knowledge provides books and reference content across the social science curriculum, which can be utilized by students discovering these topics on their own, or by faculty recommending supplementary texts for use.

Area: B.S in Health Studies—General Program

To successfully navigate the ever-evolving healthcare field, today’s health professionals can benefit from a solid foundation in the health sciences. Walden’s B.S. in Health Studies General Option gives you the opportunity to custom-tailor a course of study to support your career goals. Whether you’re currently working in a health-related field, are seeking to complete a bachelor’s degree, or are just starting your college studies, the B.S. in Health Studies General Option offers you the flexibility to explore a range of topics in healthcare, including global and public health, epidemiology, health promotion, and interdisciplinary perspectives on healthcare delivery.

Core Courses

- Concepts of Health Promotion
- Behavioral and Cultural Issues in Healthcare
- Principles of Epidemiology
- Context of Healthcare Delivery
- Introduction to Research Methods and Analysis
- Behavioral and Cultural Issues in Healthcare
- Aging Across the Lifespan
- Health Informatics
- Ethical and Legal Issues in Healthcare
- Interdisciplinary Perspectives in Healthcare
- Current Issues in Healthcare Policy and Practice
- Public and Global Health

Selection of **SAGE Knowledge** titles that support core courses

- Encyclopedia of Human Development
- Handbook of Social Studies in Health and Medicine
- AGE Handbook of Healthcare Ethics
- Sharing Assessment in Health and Social Care: A Practical Handbook for Inter-professional Working
- Encyclopedia of School Health
- Encyclopedia of Lifestyle Medicine & Health
- Handbook of Work Stress
- Encyclopedia of Social Science Research Methods
- Health Promotion Settings: Principles and Practice
- Settings for Health Promotion: Linking Theory and Practice
- Key Concepts in Public Health
- Health Promotion Practice
- Values, Ethics and Health Care

Area: Associate of Arts with a Concentration in Criminal Justice

Explore the world of criminal justice with an Associate of Arts with a concentration in Criminal Justice* degree from University of Phoenix. This is a great way to start your journey into the field of criminal justice, corrections or security. In addition to building a solid foundation by studying policing practices, the court system, corrections and juvenile justice, you'll develop sought-after critical-thinking skills as well as invaluable leadership abilities. All of the courses in our associate degree in criminal justice are updated regularly to ensure real-world relevance and are taught by leaders in the field of criminal justice and security.

Selection of **SAGE Knowledge** titles that support core courses

- Criminal Justice
- Criminal Justice and Crime Control
- Counseling Criminal Justice Offenders
- Race and Criminal Justice
- Criminal and Social Justice
- Criminal Law and Criminal Justice: An Introduction
- Understanding Criminal Justice: Sociological Perspectives
- Information Technology and the Criminal Justice System
- A History of Modern American Criminal Justice
- Comparative Criminal Justice: Making Sense of Difference
- Grantsmanship for Criminal Justice and Criminology
- Snapshots of Research: Readings in Criminology and Criminal Justice

Area: Bachelor of Education Program: Elementary

Our goal is to prepare teacher candidates to become highly effective and skilled professional teachers who continue to learn and develop expertise through inquiry and reflective practice. Utilizing a strong research base, a focus on the learner, close connections with field partners and a commitment to modeling responsive, innovative teaching practice, the program is designed to assist teacher candidates construct professional knowledge and develop deep understanding of teaching and learning for the diverse needs of our communities.

Core Courses

- Teacher Education Seminar
- Psychological Foundations of Learning and Development
- School and Society
- Curriculum and Instruction Courses
- Related Studies Course
- Practicum
- Internship

Selection of **SAGE Knowledge** titles that support core courses

- 4 Powerful Strategies for Struggling Readers Grades 3-8: Small Group Instruction that Improves Comprehension
- Bringing Poetry Alive: A Guide to Classroom Practice
- Creative Ways to Teach Literacy: Ideas for Children aged 3 to 11
- Cross-Curricular Approaches to Teaching and Learning
- Dealing with Feeling: An Emotional Literacy Curriculum for Children Aged 7-13, Second Edition
- Developing Caring Relationships among Parents, Children, Schools, and Communities
- Developing Number Knowledge: Assessment, Teaching & Intervention with 7-11-Year-Olds

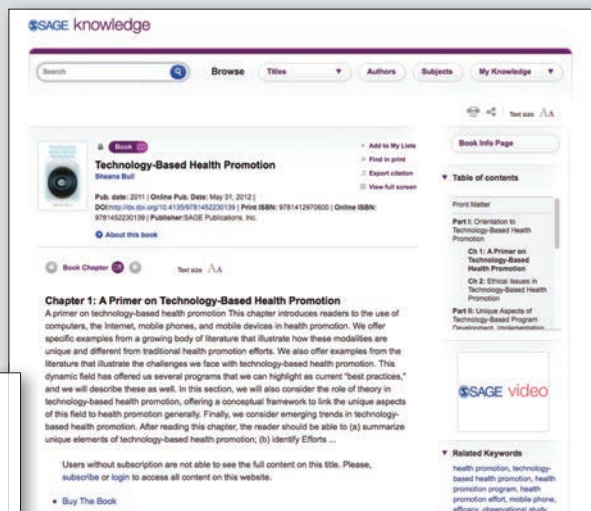

- Developing Writing for Different Purposes: Teaching about Genre in the Early Years
- Effective Strategies for Teaching in K-8 Classrooms
- Exploring Talk in School: Inspired by the Work of Douglas Barnes
- How to Teach Thinking and Learning Skills: A Practical Programme for the Whole School
- Learning and Teaching in the Primary Classroom
- Learning to Teach Reading

Business Ethics
Mark S. Schwartz

Although defining business ethics has been somewhat problematic, several definitions have been proposed. For example, Richard De George defines the field broadly as the interaction of ethics and business, and although its aim is theoretical, the product has practical application. Manuel Velasquez defines the business ethics field as a specialized study of moral right and wrong. Unfortunately, a great deal of confusion appears to remain within both the academic and the business communities, as other related business and society frameworks, such as corporate social responsibility, stakeholder management, sustainability, and corporate citizenship, are often used interchangeably with or attempt to incorporate business ethics. Relative to other business and society frameworks, however, business ethics appears to place the greatest emphasis on the ethical responsibilities of business and its individual agents, as opposed to other firm responsibilities (e.g., economic, legal, environmental, or philanthropic). The subject of business ethics has been around since the ...

Encyclopedia of Educational Leadership and Administration
Fenwick W. English

Pub. date: 2008 | Online Pub. Date: September 15, 2007 | DOI: [10.4135/9781412935564](https://doi.org/10.4135/9781412935564) | Print ISBN: 9781412935564 | Online ISBN: 9781412935571 | Publisher: SAGE Publications, Inc.

Curriculum Mapping
Fenwick W. English

Curriculum mapping is a process developed in 1979 to discern the actual as opposed to the desired curricula being employed in schools. Mapping was based on the recognition that the curriculum as a kind of work plan for teachers to follow was actually ignored or changed much of the time in classroom delivery. Change strategies that involved writing more curricula were often based on a lack of real knowledge about what classroom teachers were actually teaching. Mapping was begun as a method to discern the actual and "real" curriculum, that is, to "map" what was actually being taught. With such information, curriculum developers could (a) revise the existing curriculum accordingly; (2) establish guidelines to rewrite the curriculum; and (c) use the data to monitor the adherence of the taught curriculum as compared to the prescribed curriculum. There are three elements of curriculum mapping. The first is to discern the content ...

Crime and Media
Yvonne Jewkes

Pub. date: 2008 | Online Pub. Date: January 15, 2013 | DOI: [10.4135/9781412912211](https://doi.org/10.4135/9781412912211) | Print ISBN: 9781412912211 | Online ISBN: 9781412912228 | Publisher: SAGE Publications Ltd

Editor's Introduction

A compilation of the volume Introductions. Students and researchers of both criminology and media studies have sought to understand the connections between media and crime for well over a century. With new media developments including satellite, digital and interactive technologies, and criminal behaviour evolving to exploit these advances in knowledge and practice, the time seems right to bring together a collection of some of the most interesting and influential readings in the field. Although both crime and media have 'advanced' over the last century, some longstanding debates about their relationship refuse to go away. One of the most enduring questions in academic and lay circles is the extent to which television programmes, films, DVDs, websites and computer games can be said to cause anti-social, deviant or criminal behaviour. In some academic circles, and certainly in popular discourse, it has become something of a truism that media images are responsible for ...
