SAGE knowledge

INTRODUCTION

SAGE Knowledge is the ultimate social sciences digital library for students, researchers, and faculty. Hosting more than 6,100 titles and videos, it includes an expansive range of SAGE eBook and eReference content including scholarly monographs, reference works, handbooks, series, professional development titles, and streaming video. In 2016, it will also include SAGE Business Cases adding to the wealth of multimedia content.

When should I use **SAGE Knowledge**?

- To find SAGE, CQ Press, and Corwin eBook, video, or eReference content
- To get help identifying key research
- To search for quick explanations of terms or concepts
- To find in-depth overviews of topics across the social sciences, including:

  - Business & Management
  - Counseling & Psychotherapy
  - Criminology & Criminal Justice
  - Education
  - Geography, Earth, and Environmental Science
  - Health & Social Care
  - Media, Communication, & Cultural Studies
  - Politics & International Relations
  - Psychology
  - Sociology

SAGE Knowledge contains information suited to all levels of researchers, from undergraduate students starting their first research projects to the most senior faculty.
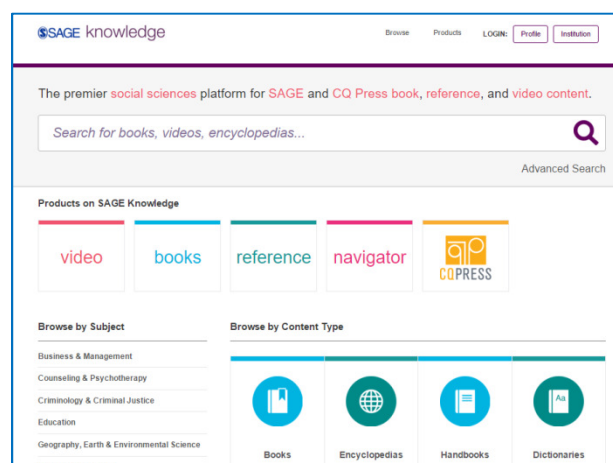

The **SAGE Knowledge** platform has many tools to simplify the research process, including:

- Table of contents navigation for eBook and eReference content
- The ability to email links to content or share via social sites
- Embed codes for video content
- DRM-light, downloadable chapters and reference entries in PDF format
- Font size customization for eBook and eReference content
- Citation export options (APA, Chicago, Harvard, and MLA)

Let's take a look at the different sections of the platform!

PROFILE

Creating a profile in SAGE Knowledge allows users to save content and searches. To be able to use Profiles, users will need to sign up as a member of SAGE Knowledge by clicking the "Profile" link towards the top right of every page and selecting "Become a Member."
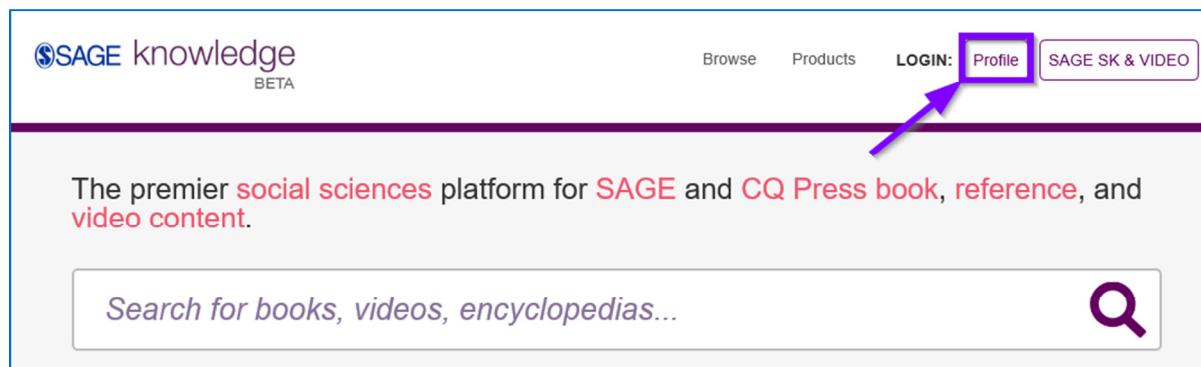

Once a user creates a profile, he or she can save content in several different ways.

- **My Lists** provide a way for you to gather content on a specific topic or for a particular purpose and group your favorites into collections. Lists can be shared with other users via email.
- **My Searches** allow you to save your common or favorite searches for easy access in the future.
- **My Account** is the area that allows you to modify your registration details: email address, name, and password. It is also the area where you can change your alert settings to manage the information that SAGE sends you about *SAGE Knowledge* and other SAGE products.

BROWSE

Researchers can browse by Subject. Each primary subject is divided into a series of subtopics, which allows for in-depth exploration of each topic.

Users can also browse by content type, allowing researchers at all levels to quickly access the type of material most useful to their project.

SEARCH

Search results include books, handbooks, encyclopedias, dictionaries, debates, major works, and videos.

> The premier social sciences platform for SAGE and CQ Press book, reference, and video content.
>
> Search for books, videos, encyclopedias... 🔍

Each search result shows a snippet of the full text. The search terms used are highlighted in this text. Searches can be saved by clicking on the floppy disk icon. The saved search remembers the search parameters. Users can conduct the same search in the future from their profile area.

Searches parameters can be saved for easy access to results in the future.

Options to search within or further refine results by content type, publication date, and subject can be found to the right of the results list.

VIEWING RESULTS: BOOKS & ENCYCLOPEDIAS

Users can search within a chapter or entry.

Related keywords and links to related content and other chapters within the book can be found on the right side of the page.

Create Clip

TRANSCRIPT | SUMMARY

Auto-Scroll: ON

00:07   [Early Childhood Curriculum-- Teaching Resources]

00:15   IAN DURY: Here we're developing a Heritage Center, where we want to tell and demonstrate the production of glassware. [Ian Dury Heritage Officer, Ruskin Glass Centre] Recently, we've done an archaeological dig, which has give us a new dimension to the Center, and we're able to tell of all different aspects of glass making in Stourbridge for the last 300 years.

00:38   IAN DURY [continued]: We are trying to develop a program that will span across all age groups, coming up with innovative ways in which we get the message about glass making was made. We've just found out that the curriculum has changed this year to include rocks and [INAUDIBLE]. And that's perfect.

The full transcript of the video is available on the right side of the page.

Each video has an embed code, which allows users to share videos on websites, blogs, etc.

Users can create clips from longer videos. Each clip will have a unique URL.
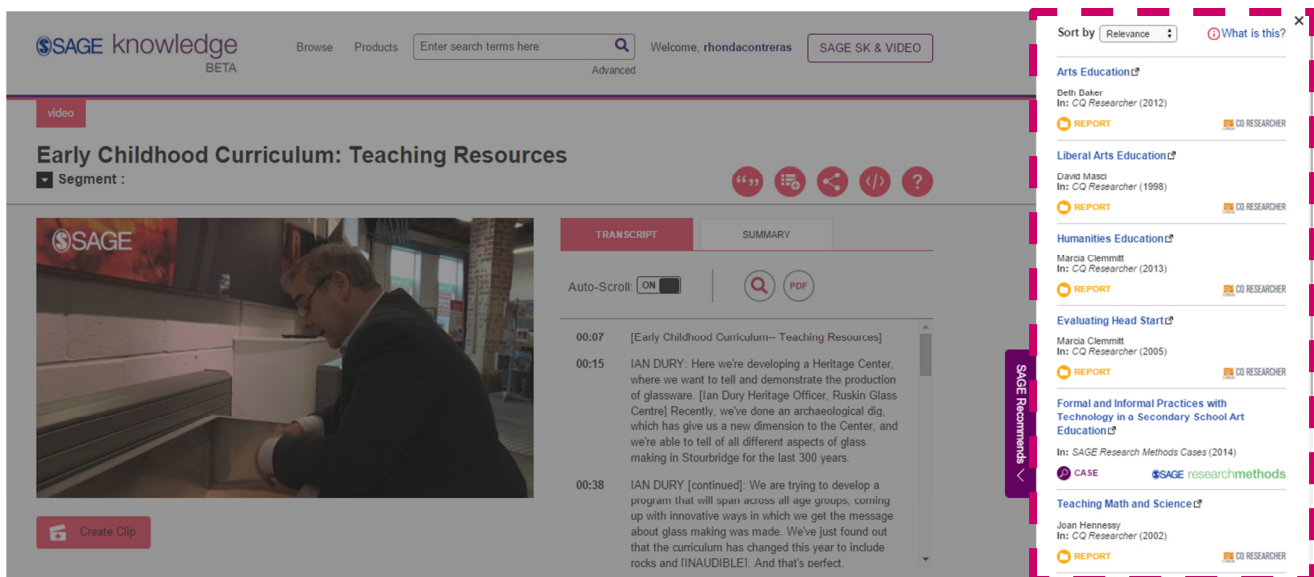

SAGE RECOMMENDS

SAGE Recommends is a cross-platform recommendation widget that shows users similar content from other SAGE resources, including SAGE Journals, SAGE Research Methods, CQ Researcher, Business, Researcher, SAGE Stats, and US Political Stats. This new feature discovers relevant content from other SAGE sites, based on what a user is currently reading. It is a great way to discover relevant or interesting material that users might otherwise have missed, including journal articles, case studies, reports, podcasts, and even numerical data.

The tab appears on all book chapter, reference entry, debate, and video pages. The tab does not appear on book landing pages, but users can find content that is relevant to a book by navigating to the introductory chapter and proceeding from there.

By default the recommendations are sorted by relevance, but the drop-down filter allows users to display the most recent content first. Clicking on a link will load the content in a new tab.

A user can often see a tool-tip that tells them what concepts a link has in common with the material they are currently reading by hovering their mouse over the link.
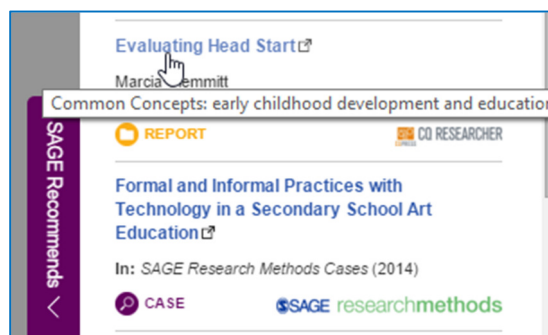

SAGE NAVIGATOR

In a world where Google churns out 20 million results per query, SAGE Navigator, hosted on SAGE Knowledge, provides a place for users to locate only the best of the scholarship in the field or topic and includes literature from over 1,000 publishers

Based on our print Major Works, SAGE Navigator is an essential social sciences literature review tool covering almost 300 topics in 10 subject areas, each introduced by an internally renowned academic. Overviews are written by renowned academics and contain recommended works and an interactive chronology.

SAGE Navigator Landing Page: Browse Navigator Collections or Learn More about the Chronology Tool

Overview: Each title includes an overview of the discipline, where the editor explains how he or she selected the readings.

Key Readings: A chronology gives the user the opportunity to visualize development of research within a topic. It shows the categories that the editor defined as most important, plotted on a timeline. Colored dots, each of which represents a key reading, are designed to help researchers recognize patterns within the topic. Links to key readings can also be found beneath the chronology tool.
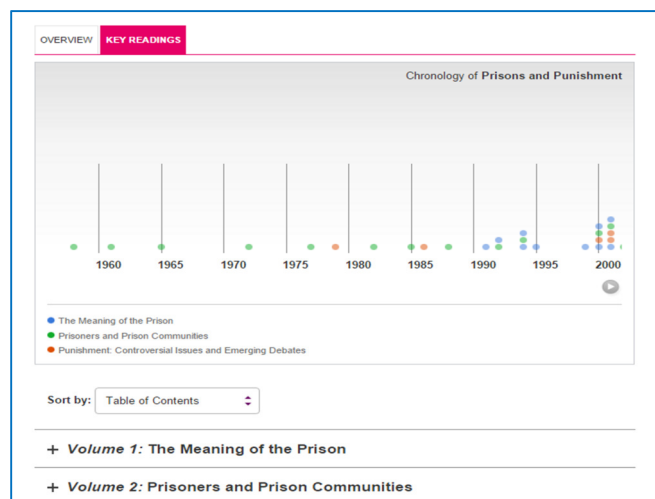

Users can then select the readings listed to review an abstract of the journal article. They will be able to read the full article If their institution has a subscription

SAGE Knowledge provides books and reference content across the social science curriculum, which can be utilized by students discovering these topics on their own, or by faculty recommending supplementary texts for use.

Area: B.S in Health Studies – General Program

To successfully navigate the ever-evolving healthcare field, today's health professionals can benefit from a solid foundation in the health sciences. Walden's B.S. in Health Studies General Option gives you the opportunity to custom-tailor a course of study to support your career goals. Whether you're currently working in a health-related field, are seeking to complete a bachelor's degree, or are just starting your college studies, the B.S. in Health Studies General Option offers you the flexibility to explore a range of topics in healthcare, including global and public health, epidemiology, health promotion, and interdisciplinary perspectives on healthcare delivery.

Core Courses:

- Concepts of Health Promotion
- Behavioral and Cultural Issues in Healthcare
- Principles of Epidemiology
- Context of Healthcare Delivery
- Introduction to Research Methods and Analysis
- Behavioral and Cultural Issues in Healthcare

- Aging across the Lifespan
- Health Informatics
- Ethical and Legal Issues in Healthcare
- Interdisciplinary Perspectives in Healthcare
- Current Issues in Healthcare Policy and Practice
- Public and Global Health

Selection of SAGE Knowledge titles that support core courses

- Encyclopedia of Human Development
- Encyclopedia of School Health
- Encyclopedia of Lifestyle Medicine & Health
- Encyclopedia of Social Science Research Methods
- Handbook of Work Stress
- Handbook of Social Studies in Health and Medicine
- SAGE Handbook of Healthcare Ethics

- Sharing Assessment in Health and Social Care: A Practical Handbook for Inter-professional Working
- Health Promotion Settings: Principles and Practice
- Settings for Health Promotion: Linking Theory and Practice
- Key Concepts in Public Health
- Health Promotion Practice
- Values, Ethics and Health Care

Area: Bachelor of Education Program: Elementary

Our goal is to prepare teacher candidates to become highly effective and skilled professional teachers who continue to learn and develop expertise through inquiry and reflective practice. Utilizing a strong research base, a focus on the learner, close connections with field partners and a commitment to modeling responsive, innovative teaching practice, the program is designed to assist teacher candidates construct professional knowledge and develop deep understanding of teaching and learning for the diverse needs of our communities.

Core Courses:

- Teacher Education Seminar
- Psychological Foundations of Learning and Development
- School and Society
- Curriculum and Instruction Courses
- Related Studies Course
- Practicum
- Internship

Selection of SAGE Knowledge content that support core courses

- Collaborative Teaching in Elementary Schools: Making the Co-Teaching Marriage Work! (Corwin)
- Bringing Poetry Alive: A Guide to Classroom Practice
- Creative Ways to Teach Literacy: Ideas for Children aged 3 to 11
- Cross-Curricular Approaches to Teaching and Learning
- Developing Portfolios in Education: A Guide to Reflection, Inquiry, and Assessment
- Developing Writing for Different Purposes: Teaching about Genre in the Early Years
- Effective Strategies for Teaching in K-8 Classrooms
- Skill Building in Elementary Math: Between Remediation and Academic Promotion
- Case Studies in Elementary and Secondary Curriculum
- Making Connections in Elementary and Middle School: Social Studies, Second Edition
- Autism and Early Years Practice, Second Edition

- Realizing the Promise of 21st-Century Education: An Owner's Manual
- Cognitive Development Today: Piaget and His Critics
- Encyclopedia of Giftedness, Creativity, and Talent
- Encyclopedia of Diversity in Education
- Assessment in Education
- Early Childhood Education
- The SAGE Handbook of Early Childhood Literacy
- The SAGE Handbook of Play and Learning in Early Childhood
- The SAGE Handbook of Developmental Disorders
- Rewards and Incentives (video)
- APP for Primary Science—Counting Caterpillars with Deborah Herridge (video)
- Teaching and Learning—Early Years Foundation Stage (video)
- Playing with Blocks (video)
